# Scoot

Quick Start Guide for Web

It's easy to join a Scoot meeting or event. Jump in and experience the Scootaverse® for yourself!

Getting In

Hop on a computer and go to us.scoot.app, or click the link that was shared with you. Be sure the link is opening in Google Chrome, Microsoft Edge, Firefox, or Safari.

Joining a meeting on the go? Scoot is supported on Android devices. To join from an iPhone, download our iOS app from the App Store.

Basics

- Use your mouse or arrow keys to freely move around the room.
- Audio will change volume as you get closer to or further from others.
- Teleport using the map or from a user's Smart Badge
- Use the mini-map 🗺 (bottom right corner) to navigate.

Tips & Tricks

- Use updated browsers and computers, if available.
- Check that your computer's audio and camera are enabled.
- Disconnect from VPNs or strict networks, as they can cause connectivity issues.

More Help

For additional help on getting started and to schedule a training, email us at support@scoot.app.

Or go to help.scoot.app to visit our Help Center.
